

INTERNATIONAL FREIGHT FORWARDING DEPARTMENT

Fama were established in Poland operating within the transport and logistics market and has a strong reputation for delivering goods quickly and reliably across the whole of Europe. At present we are transporting over 5000 tonnes pa into the UK and Ireland and are keen to increase the quantity that we are bringing out of the UK with a particular interest in items returning to Poland. A young company having been established in 1989, we aim to cater to all the needs of our partners and have a fleet containing vehicles in several sizes to facilitate this.

We are a fast growing ambitious company that hopes to forge long lasting partnerships with British and Irish firms to continue the success we have enjoyed in recent years.

With the aid of our reliable transport service your goods can be offered to the ever increasing European markets. With our system of negotiable pricing we ensure that our services come at prices that are fair and affordable, helping both of our businesses to progress together.

We also have drivers that are qualified to carry ADR goods so that there are no restrictions to our capabilities. We ensure that all our trucks have mobile phones so that we can be in constant contact with our drivers and we are always aware of exactly where your goods are. We even have a 24hr information hotline open 7days for your convenience. To add to this we own the insurance for all the goods that we transport in order to offer you a complete and guaranteed service without any hidden costs.

We hope that you will consider us for your next transport requirement.

Vehicles in Service - April 2008: 21 tiltrailers, 1 road train, 4 delivery trucks.
